March 25, 2020 - Magni America LLC announced that Action Equipment has committed to adding 20+ Magni Telescopic Handlers to their fleet over the course of 2020 in order to better serve their customers in the southeast.

Magni America is excited that Action Equipment is reaffirming their commitment to Magni telescopic handlers, with Vice President Gary Weisman saying, "We are thrilled that Action Equipment has decided to double down on their commitment to Magni. We're so excited to continue working with Action

to sell, rent, service, and provide support of Magni telehandlers in the southeast.”

Magni models include 16 rotating telehandlers with lift heights from 57’ to 167’, and lifting capacities from 8,800 - 28,600 lbs. In addition, Magni offers eight heavy lift telehandlers with capacities from 22,000 - 110,000 lbs. Lastly, Magni produces two unique fixed boom telehandlers with lift heights of 63 and 78 ft., and capacities of 11,000 and 13,200 lbs.

Action Equipment has chosen to add the brand new RTH 6.51 to their fleet. According to Magni, this rotating telehandler has a world record maximum lift height of 167 ft. and a maximum capacity of 13,200 lbs. As with all Magni’s, there are over 100 attachments available allowing Magni’s to operate as many machines in one.

‘We’re looking forward to continuing our relationship with Action and are excited that they are adding many machines including the RTH 6.51 to their fleet,’ said Joe Leinwol, vice president of sales, Magni America.
